AIAS Freedom
by Design™

Dear Barrier Free Living,

AIAS Freedom By Design is a non-profit organization that utilizes the skills of Architecture students to radically improve the living conditions of disabled people within our local community.

Currently, we are working on **The KIND Project** in Old Medford Long Island. The goal of this project is to rehabilitate the Excel Equestrian Therapy Farm which was severely damaged during hurricane Sandy. Due to these unsuitable living conditions, horses on this farm are facing severe illness and are in danger of dying. These horses are an integral part of the ongoing therapy at the farm, which is used to treat persons with disabilities including children with **Autism**.

Our ultimate goal is to raise **\$10,000** to rebuild the damaged sheds and give these horses a new home. We are aware that this is an ambitious target, but with your potential contribution of at least \$100, we will be significantly closer to achieving this goal. Donations may be made via our website at www.aiasfbdnyitma.com **OR** by check or money order made to **“AIAS FBD NYIT Manhattan Campus”**.

Should you have any questions, please feel free to contact our team at fbd@nyit.edu. Thank you for your time and kind consideration! We look forward to your positive response!

Warmest Regards,

The AIAS FBD Team
